INGO WALTER  
SEYMOUR MILSTEIN PROFESSOR OF FINANCE,  
CORPORATE GOVERNANCE AND ETHICS

Dear Program Participant:

Welcome to the New York University Stern School of Business executive workshop on "Modern Finance Topics for Senior Executives." We have assembled a team of front-line faculty who teach and conduct research on the principal issues in modern finance affecting senior management, as the role has traditionally been framed and as it is likely to evolve going forward.

The topics emphasize "education" rather than "training" - each topic during the week is part of a mosaic and takes the form of an inverted pyramid, starting with key broad-gauge drivers of the financial architecture within which financial and nonfinancial firms operate, through some of the key finance building-blocks where new insights can be provided, to governance and strategy issues of concern for strategic development and execution.

We believe you will find the coming week to be good value and time well spent. If there are issues you would like to add to the agenda, please do not hesitate to raise them with the faculty member concerned or with me, and we will make every effort to accommodate you.

Regards,

Ingo Walter  
Academic Director
