

# Fall 2020 Lottery Hints & Course Information

## > Lottery Processing

The lottery system will evaluate all of your **primary selections first**. If any of your primary selections are closed at the time your courses are evaluated **the system will only look at the corresponding alternate for the closed course**. If the alternate course is available and does not conflict with any primary courses you will then be registered into your alternate choice.

**IMPORTANT:** Be sure to select alternate courses! In the event that your primary selection is closed alternate selections will be evaluated for availability and increase your odds of getting a full schedule.

## Alternates <

You may select two 1.5-credit alternates for a 3-credit course, however, the system **will not permit** you to select a 3-credit alternate for a 1.5 credit course. If you would like to do so, please submit your lottery selections **without** the 3-credit alternate and email your alternate request to [registrn@stern.nyu.edu](mailto:registrn@stern.nyu.edu).

**HELPFUL HINT:** To minimize conflicts between primaries and alternates try to select alternates that are scheduled at the same time as the corresponding primary selection.

**For Example:** Looking at the selections above, if your primary 2 selection is closed the system will place you in your alternate 2 selection (unless the course is also closed). If your alternate 2 selection were a Monday 6:00 PM course the system would detect a conflict with your Primary 1 selection and would be unable to register you.
